Azaleas

are the artists of your Spring-time Garden. With their rich and brilliant blooms they paint pictures of breathtaking beauty, of *long-lasting* loveliness.

Azaleas are so versatile. What gayety they bring to paths and borders, what bright splashes of early color they add to your rhododendron plantings! Picture their vivid blossoms against that distant group of evergreens, and their fairy-land charm in a woodland setting! Azaleas enjoy the natural conditions of woodland soil—and they don't mind partial shade.

Native Azaleas in a naturalized planting.

Chinese Azaleas against a background of Evergreens.

Native Azaleas on a woodland slope.

Andorra's Azaleas are perfectly hardy, and include an infinite variety—the glorious Japanese, Chinese, Korean; the delicate India Azalea, the gorgeous Ghent, the lovely, fragrant Natives.

Andorra Advocates planting Azaleas NOW, in early April; they will reward you with their exquisite blooms almost immediately. Late in April and throughout the month of May your gardens will glow like a painter's palette.

From among our many varieties, Andorra offers you three groups at *Very Special Values* (on the next page).

Andorra Nurseries, Inc. Telephone Chestnut Hill 4200

Wissahickon Drive at Northwestern Avenue,
Chestnut Hill, Philadelphia

(Easily reached from Ridge Ave. or Germantown Ave.)

Paint pictures in your Spring-time Garden with *Azaleas* from *Andorra*!

The three groups given below each include varieties carefully chosen from our hardy, healthy stock to give you enchanting color variation and prolonged beauty of bloom. The group reduction is substantial. *Order now*—for these Azaleas will bloom in late April and in May.
